

Business: Management

Award Type: Associate in Science

The associate of science degree program in business prepares students for entry-level management positions. Courses also provide a foundation for upper division courses in a baccalaureate degree program in Business. Students will recall and apply significant business principles, produce work-based learning projects, and demonstrate the ability to follow oral and written instructions.

The graduate of the Associate in Science in Business: Management will:

- Recall significant business issues, theories, and applications relevant to entry-level management positions and subsequent upper-division coursework.
- Apply business principles to produce work-based learning projects related to entry-level management positions.
- Demonstrate the ability to follow instructions on assignments and class activities.
