## Personal Care Attendant

**Award Type:** Certificate of Completion

Completion of this program prepares students to assist patients and families with non-medically directed personal care; assist with home management activities; care for patients with dementia and Alzheimer's disease; and/or assist in the needs associated with end-of-life care.

**The graduate of the Certificate of Completion in Personal Care Attendant will:**

- Utilize correct techniques for non-medical personal care, including effective communication, measuring vital signs, and bathing.
- Demonstrate use of effective strategies for assisting and communicating with individuals with dementia or those facing end-of-life.

### Program Requirements

**The student must complete 48-54 hours.**
